Critter Count 2024

Welcome to Critter Count 2024! We are excited to bring back an adventure that took a brief hiatus. Critters (set out by the adventurous Catamounts ski program) are hiding along the edges of a loop (see map on the back of this sheet). Ski this lovely loop and count how many critters you see decorating the trees along the way.

Once you are back, find the sap bucket labeled "Critter Count." This will be inside the Touring Center just inside the doors on the big porch - check the big windowsill. Fill out a slip with your name, info, and the number of critters you saw.

Winners will be selected on February 19th. You can ski the loop and submit a guess per each completed loop. You can also tackle the loop over the course of a few skis, and you can tackle this challenge as many times as you'd like. If many people all guess the correct number, there will be many winners. Good luck, have a blast!
